

**Direct Energy Regulated Services
PROPERTY OWNER/MANAGER AUTHORIZATION FORM
Natural Gas Supply**

I/We own or manage the properties listed below and do authorize Direct Energy Regulated Services to service the accounts by either leaving on and charging I/we the landlord and/or to shut the services off during the dates provided (refer to definitions and disclosures of each choice below).

Leave on, Charge Landlord: The landlord/owner agrees to be automatically billed for interim periods (i.e., between tenants) without prior contact.

Shut Off: The landlord/owner agrees to have the service disconnected regardless of the time of year, when it is determined to be vacant. The landlord/owner has responsibility for ensuring their property is protected for inclement weather conditions. Disconnected services are subject to a reconnection fee, which is the responsibility of the next party requesting service as well there may be the need to have the property inspected depending on the length of time the service has been shut off and where the property is located. This becomes the responsibility of the customer.

Direct Energy Regulated Services does not accept responsibility for damages caused to property as a result of weather. We recommend that property owners or managers take steps to preserve and secure their property against freezing. The property owner or manager must contact Direct Energy Regulated Services at 1-866-420-3174 when reconnection of utilities is required.

If you no longer own this property and or wish to end/change the agreement, send a request in writing to end the PVA and we will update our records.
