**DIRECT ENERGY REGULATED SERVICES – SOUTH
DEFAULT RATE TARIFF
GAS CHARGE – MARCH 2010
APPLICATION NO. 1605924**

1. Direct Energy Regulated Services (DERS), a Business Unit of Direct Energy Marketing Limited, filed an application (Application) on February 22, 2010, with the Alberta Utilities Commission (AUC) for its gas cost flow-through rate¹ (GCFR) for the month of March 2010 for customers served in the ATCO Gas² South service territory. The proposed GCFR was \$5.158 per gigajoule (GJ).

2. In Order [U2008-374](#),³ the AUC approved for DERS on an interim basis, effective January 1, 2009, a return margin of \$0.0223/GJ. Unlike the GCFR, the return margin is not subject to deferral account treatment through DERS's deferred gas account but is to be recovered with the GCFR through DERS's Rate Rider "F". For the month of March 2010, DERS included the following amounts in setting Rider "F" for customers served in the ATCO Gas South service territory:

	\$/GJ
GCFR	5.158
Reasonable return margin (rounded)	<u>0.022</u>
Rider "F"	<u>5.180</u>

¹ This rate for marketable gas, also known as a gas cost recovery rate (GCRR), is referred to as the gas charge under the *Default Gas Supply Regulation*, AR 184/2003, as amended.

² A division of ATCO Gas and Pipelines Ltd.

³ Order U2008-374 – Direct Energy Regulated Services, 2009 Interim Default Rate Tariff and Regulated Rate Tariff (Application 1595512, Proceeding ID 134) (Released: December 11, 2008).

3. AUC staff members have reviewed the Application and the AUC accepts that the proposed GCFR was calculated on a monthly flow-through basis in accordance with section 3(5) of the *Default Gas Supply Regulation*, AR 184/2003, as amended, and in accordance with the directions previously issued to gas utilities by the Alberta Energy and Utilities Board, predecessor to the AUC, in Decision 2001-75⁴ and more specifically to ATCO Gas South in Decision 2002-034⁵ and to DERS in Decision 2003-106.⁶ Consequently, the AUC acknowledges for DERS the GCFR of \$5.158/GJ, which is to be applied to all energy sold to customers served by DERS under Rates G1, G3 and G5 in the ATCO Gas South service territory during the month of March 2010.

4. As directed in Decision 2001-75, a 30-day review period was provided to interested parties following the filing of each monthly GCFR in which parties could raise any concerns with the GCFR, price and volume forecasts, and prior period reconciliations. As DERS is the Default Supply Provider for ATCO Gas, the 30-day review period is similarly applicable to the GCFRs requested by DERS.
